Committed to people
Committed to the future

Since its inception in 1999, Adarsh Super Construction Pvt. Ltd. has been known to creating benchmarks in the world of real estate. As eminent builders and engineers, Adarsh Super Construction strives to ensure that the themes of our consultant are best reflected. We believe in fostering integrity as our core value and adhere strictly to professional ethos throughout our business. We have constructed a diverse range of residential complexes, multistoried apartments, group housing schemes, educational institutes, hotels and hospitals. We possess immense goodwill of our contented customers that we have generated through years of delivering exceptional services and timeless value.

Superior execution ability, robust engineering, uncompromising business ethics and a commitment to quality is what helped Adarsh Super Construction to create a unique niche for itself in realty. From towering up one of the best apartments to giving sophistication to educational institutions, hospitals and hotels, Adarsh Super Construction is a highly reputed name today. Some of our prestigious clients include Government, Semi-Government and Private Organizations. Adarsh has completed numerous landmark projects which are exquisitely works of art and possesses various ongoing projects. We are a group of pro-active and dedicated professionals who have traversed a long way with our penchant for creativity and innovation.

ADARSH
SUPER CONSTRUCTIONS PVT. LTD.

Vision

To transform the idea of quality that the community possesses by setting new benchmarks in realty and developing state of the art infrastructure using the best technology thus fostering successful client relationships based upon trust, transparency and efficiency.

Mission

Adarsh Super Construction aims to provide to its customers the highest standards of quality construction services at the most competitive prices. The group shall continue to expand its operations both in geography and work type. Adarsh Super Construction strives to ensure utmost professionalism, integrity, honesty and fairness with all its professional associates so they can achieve repeat and referral business through customer satisfaction.

Work Philosophy

There are specific corporate values which are unique to Adarsh Super Construction. By fostering transparency, efficiency and delivering value for money we are able to become your premier building partner for real estate, design, construction and building needs. We provide a working environment that stimulates innovative ideas, works with integrity in dealings and creates life- long client relationships. Delivering value for money has been the cornerstone for every single thing that we do. Right from the conception and the design, our clients rely on us to bring their vision to fruition. We firmly adhere to our work philosophy and with this very commitment we wish to carry ourselves for the times to come.

We believe in fostering Professionalism and Integrity as our core values

about us

Successful Project Management Includes:

- Timeliness
- Transparency in operations
- Design and construction ingenuity.
- Delivery of high-quality project.
- Excellence in performance and workmanship.
- Adherence to commitments.

Our Strength

Ushering in a new era in real estate, Adarsh Super Construction emerged about 2 decades ago under the able guidance of J.S Sandhu, a distinguished civil engineer. His extensive portfolio includes several academic and administrative posts along with numerous consulting positions at various groups.

During this period, he was honored with various awards. His years of work experience prior to establishing Adarsh Super Construction include serving Vardhman Group for a decade, leading the team of professionals of the Nahar Group for 2 years as a Project Head and serving Trident Group as a Counselor for 7 years. His undeterred commitment to success and cognizance of the real estate market, construction, engineering and technology have all been instrumental in propelling the company in the world of realty.

At Adarsh Super Construction we believe in creating spaces that inspire as they echo boundless class. Our architectural excellence, contemporary styling, quality construction and timely delivery are based on our deep understanding of the current trends. Consolidating on its success, the group has proudly delivered over 100 architectural marvels in the city beautiful and its vicinity that have upheld quality and stood the test of time.

Our Pioneer

Ar. Amardeep Sandhu plays a vital role in association with the synergetic team of experienced professionals. His diligent devotion to his upcoming profession enables him to transform the abstract ideas of his clientele into innovative design concepts. And through the reviews and dialogue, develop the approved concept into a functional, comfortable and cost-effective design that is climate friendly and equates to timeless aesthetic appeal and value.

Amardeep works in concert with each client during the construction phase. In addition to these responsibilities, he manages office operations and personnel resources. Value engineering is an organized application of common sense and technical expertise directed at finding and eliminating undesirable and unexpected surprises and unnecessary costs in a project.

With years of educational experience, he effectively manages, reviews and analyzes each project in an effort to ensure that they are designed in conjunction with building code regulations.

Construction Equipment

Batching Plant (2 No's) : At Adarsh Super Construction we have state-of-the-art concrete batching plant. 30 Cubic metre/hr capacity which involves 5 labourers and 2 operators only. It not only reduces the labor requirement but also helps in reducing the expense.

Transit Mixtures (2 No's) : The equipment helps in transporting concrete / mortar from concrete batching plant directly to the place where it is to be poured. It has a wide range of application specially for mass concreting works.

Boom Placer : It is a mobile pump loaded in truck which helps in taking the material to multiple floor without involving labor. It further eases task while concreting the columns.

At Adarsh we use the above equipment. This whole set-up helps in fulfilling the task of 250-300 labourers per day and increases the speed by many times.

Construction Equipments

Baching plant 30 cum	:	Two
Mini Baching plant	:	Five
a) Shuttering plates	:	150000 Sqft.
b) Steel pipes	:	1,00,000 Sqft.

Experience Excellence

With the changing time and lifestyles there is one thing that constantly determines success it is the pursuit of excellence. Excellence comes with experience there's no shortcut to it. It requires years of dedication and countless hours of effort. It is an endless journey. At Adarsh we believe that excellence and timelines move parallel. These two concepts are not opposed to each other; in fact, speed and timeliness are important elements of quality and excellence. It brings lots of incentives not only financially but also ethically.
